

FOR IMMEDIATE RELEASE

Community Survey Released for Dixon General Plan Update

October 19, 2015, Dixon, CA

In late 2014, the City of Dixon initiated the multi-year process of updating the General Plan, beginning what will be a unique and important opportunity for residents to share their ideas about Dixon's future. The General Plan Update is a collaborative community effort to create a vision and a blueprint for development in Dixon through 2040.

The City has released a survey to gather community feedback and identify issues and opportunities. The success of the Dixon General Plan Update relies on involvement of the whole community. In order for the new Plan to reflect the community's goals and ideas, the City needs to hear from residents. The survey is available online at the City's website (<http://www.ci.dixon.ca.us/>), and paper copies will be available at City Hall, the library, and the senior center. The survey will be available until November 6.

The General Plan is the City's primary guide for land use and development, transportation, environmental resources, public facilities, and parks and open spaces. The existing General Plan dates back to 1993, and new opportunities, challenges, and priorities have emerged in recent years. Residents have the opportunity to get involved at all stages of the planning process, from the initial visioning and issues assessment to the adoption of the General Plan and review of its accompanying Environmental Impact Report.
