

CALIFORNIA WATER SERVICE

Stockton District 1505 East Sonora Street, Stockton, CA 95205
Tel: (209) 547-7900

April 4, 2017

Dear Customer:

This letter is to inform you that California Water Service Company (Cal Water) is planning a water system improvement project in your neighborhood starting in April 17, 2017. This project will take approximately six weeks to complete, weather permitting.

The purpose of this project is to install a new water main in the east side of Jefferson Street, from Cherry Ave. to Mayes St. Upon completion, the new facilities will improve water service throughout the area.

West Valley Construction will be performing the underground construction work under the supervision of Cal Water. Work is scheduled Monday through Friday between 7:30 a.m. and 4:00 p.m.

Minor disruptions in water service during construction will be necessary to connect the new water mains to the existing water mains. One to two days notice, whenever possible, will be provided prior to any service interruption.

There will be significant trenching for this project to install facilities. Trenches will be filled daily and temporary asphalt applied for safety and traffic concerns. Permanent paving of trenches will take place upon project completion.

Also included in a project of this nature are reconnecting and/or installation of new service lines from the water main to the water meter. To do this, it sometimes becomes necessary to work in the front of the properties involved. Occasionally this work involves trimming bushes; disturbing lawn areas around meter boxes; altering landscaping, etc. in order to complete the project. Whenever this occurs, every effort will be made to leave the area we are working in as close to "original" as possible.

If you have any questions or concerns regarding this project or would like any further information about this project, you can contact me at (209) 464-8311. Also, if your property has a well onsite we would like to know before we begin our project. Thank you in advance for your cooperation and patience.

Sincerely,

TJ Salgado
Construction Superintendent
Stockton District
